

# SOLAR POWER

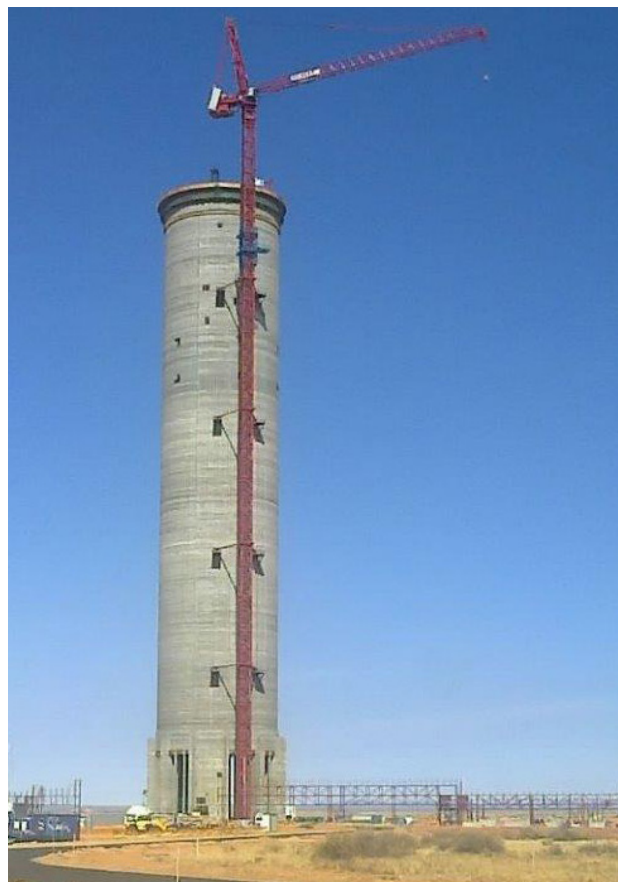

## • DISCOVER OUR SCOPE

- Although the solar industry is still in development phase have profound experience in the construction of solar towers.
- Heavy luffing tower cranes with modular systems
- Logistic management
- Full option scope including project
- Management and SHEQ

## • KEY BENEFITS/SERVICES

- Heavy lift partner for over 60 years
- More than 30 years solar power sector experience
- Worldwide presence in over 60 countries
- Cranes reach considerable freestanding heights with different jib lengths
- Equipment only requires a small ground area, making them an ideal solution for solar projects.
- Certified equipment and personnel
- Engineering including 3D animation

## SOLAR POWER

### • SOLUTIONS

- Self-climbing tower cranes enabling to evolve jointly with the construction of the solar tower
- Heavy luffing tower crane heavy luffing tower cranes with modular systems
- Different jib lengths
